TUSCANY FORD F-450 & F-550 FULL-FUNCTION PICKUPS

Our full-function F-450 and F-550 pickups offer the versatility of being the lead-selling tow vehicle while maintaining its useful everyday pickup demeanor. This vehicle offers an incredible payload capacity with a structurally-reinforced bed, including additional cross sills and reinforced 'D' pillars. This ensures your bed capacity matches the ability of your truck. And, you have no unpleasant cosmetic 'filler' panels – this is not simply a bolted on, lower-capacity box that was not designed for the Super Duty chassis! For quality, durability, reliability, resale value and the peace of mind that you have the best available Super Duty pickup on the market, look no further than Tuscany.

THE TUSCANY STARHAULER

For the more serious, near full-time tow vehicle, or when your trailer requires additional clearance, Tuscany has the ideal solution: customized bodies that provide ample storage compartments while projecting a neat, clean appearance. The all-aluminum bed provides a light, rust-free body specially designed to maximize your towing capacity. The Tuscany Starhauler is the ideal solution for your specialized towing needs.

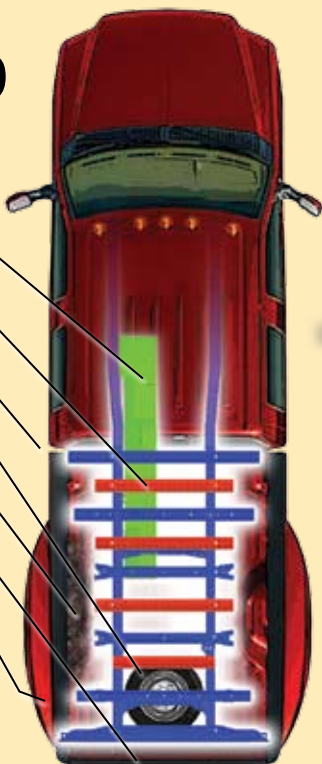

TOW VEHICLES WITH AN ATTITUDE

For the serious tow vehicle with an attitude, the Tuscany F-650 Starhauler answers the call. The F-650 is a tough, hard-working

Class 6 truck. This Super Duty model delivers modern styling and many comfort and convenience features customers may be surprised to find in a truck of this size. And, with the optional Tuscany interiors, this Starhauler will have you pulling in style.
